Dear Parents,

Welcome to another wonderful year at White Pine Charter School. We are excited for After School Programs and hope to expand on what we already offer!

Below is a list of programs that we will be offering this year, with dates and times available. You can sign up with your child during registration or permission slips will be available in the office at any time. Our After School Programs are completely volunteer driven. In order to expand we need willing parents to take on the challenge. You will find a wish list below as well. These are things we would like to see at our school but don't currently have anyone for the position. These just serve as suggestions, as we would welcome any other ideas that gear towards your strengths (as long as they serve a purpose and create a final product).
